

## Spring 2015

### Meet the New Team Members

#### Points of Interest:

- New Staff
- Pinterest
- Photography Spotlight

#### Fun Fact:

Dr. Peck is one of only 404 dentists in the HISTORY of the American Academy of Dentistry (AACD) to become an accredited member.

#### Upcoming Lectures/

#### Conferences:

- April 10, Lecturing in New Orleans
- April 17, Dental Society Continuing Education
- May 5-10, AACD Conference

We have some new faces around the office and whether you have had the chance to meet them or not, we would like to give our patients a formal introduction. Pamela and Kristine have joined Betty and Bev as full time office staff and Christy has joined Deann in our hygiene department.

Pamela started with the practice last November and brings over 15 years of prior administrative and office management experience to the team. She has an Associate's Degree in Legal Studies from Columbus State Community College. Pamela has worked in the architectural field and as a paralegal, but is loving the new challenge of learning dentistry from one of the best in the region.

Kristine is a 2013 graduate of the University of Dayton where she studied Communication Management. She was previously the office manager of an alternative junior high/high school. Since joining the team last October, Kristine has enjoyed witnessing the advanced technology used by Dr. Peck to treat our patients.

Christy joined the team as our full-time hygienist last August with 20 years of experience in private practice dentistry. She attended the University of Cincinnati and received her Dental Hygiene degree in 1995. Christy enjoys helping her patients achieve a healthy smile, while contributing to their overall health.

Kristine

Christy

Pamela

Our new team members are quickly becoming a tremendous asset to Dr. Peck and the office. If they haven't had the pleasure of meeting you yet, they are looking forward to seeing you at your next visit.

## Photography Spotlight

Dr. Peck captured this photo while hiking in Utah at Zion National Park during a trip in early November, 2014. Isn't it breathtaking?
